

# Product Range *Overview*

# Pioneering solutions for total power protection

## Single phase UPS

## Three-phase modular UPS

### Rehiko MINIPowerPLUS

- | 1.25–10 kVA
- | Modular tower or rack capable of N+1 redundancy
- | Additional modules or batteries can be added
- | Up to 92% efficiency

### Rehiko PW 1000

- | 1–10 kVA
- | Flexible tower or rack-mounted system
- | Hot-swappable batteries
- | Up to 94% efficiency

### Rehiko PW 3000/P1

- | 10 kVA & 20 kVA
- | Unity power factor
- | Parallel capability up to 4 units (80 kVA/kW)
- | Best in class 96.6% efficiency

### Rehiko PW 8000DPA

- | 10–200 kVA
- | Available as a tower or rack-mounted solution with hot-swappable modules
- | Parallel capability up to 4 units (400 kW)
- | Up to 95.5% efficiency
- | All Rehiko DPA models feature six nines (99.9999%) availability

## Three-phase modular UPS

## Three-phase monolithic UPS

### Rehiko PW 9250DPA

- | 50–300 or 250 kVA/kW N+1
- | Xtra VFI mode – UPS automatically adjusts the number of active modules according to the load requirements
- | Parallel capability up to 5 units (1.5 MVA/MW)
- | Up to 97.4% efficiency

### Rehiko PW 9500DPA

- | 100–500 kVA/kW
- | Xtra VFI mode – efficiency even when under-loaded
- | Parallel capability up to 6 units (3 MVA/MW)
- | Up to 96% efficiency
- | Small footprint/high power density

### Rehiko PW 5000/TP

- | 10–50kVA
- | Available in 3 cabinet sizes
- | Parallel capability up to 20 units (1 MVA)
- | Up to 95.5% efficiency

### Rehiko PW 6000

- | 60–500 kVA
- | Bespoke battery configuration
- | Parallel capability up to 10 units (5 MVA)
- | Up to 96% efficiency

## High-power modular UPS

### Rehlko MF DPA Series

- | 250–1500 kVA, parallelable to 6 MVA
- | 0.75, 1.0 and 1.5 MVA frames with distributed or central bypass
- | Innovative, slide-out vertical modules with distributed parallel architecture (DPA) design for maximum resilience
- | Best-in-class, independently certified efficiency up to 97.4%

### Rehlko MF CSB-DPA Series

- | 1500–2000 kVA, parallelable to 4.5 MVA
- | 1.5 MVA and 2.0 MVA frames with slide-out central static bypass (CSB) module
- | Innovative, slide-out vertical modules with distributed parallel architecture (DPA) design for maximum resilience
- | Dual feed input
- | Best-in-class, independently certified efficiency up to 97.4%

## Emergency lighting inverters

### Rehlko EL100XA

- | 500–3000 VA (single phase)
- | Available as wall-mounted or standalone units
- | 3 hour autonomy
- | Up to 91% efficiency

### Rehlko ELMOD

- | 4–24 kVA (single phase)
- | Modular inverter that can be configured between 4–24 kVA in 4 kVA modular steps
- | Battery discharge management
- |  $\geq$  93% efficiency

### Rehlko EL300DSP

- | 10–160 kVA (three phase)
- | 13 models in the series provide flexibility for different applications
- | Battery life is prolonged with weekly automatic battery tests & intelligent monitoring
- | Up to 91% efficiency

## Generator sets

### Standard or Bespoke

- | 10 kVA to 4.5 MVA
- | Rehlko is also one of the world's leading generator manufacturers, offering a wide range of efficient models, engine choices and complete packages
- | More details of our range are available on request or at our website

# Critical power protection solutions

- | UPS systems
- | Emergency lighting inverters
- | Standby generators
- | Critical power maintenance
- | Energy efficiency, obsolescence risk and compliance audits
- | CIBSE accredited CPD training

# Our products are only half the story

We pride ourselves on the service we offer, from concept discussion to end-of-life recycling, and are delighted to be rated best-in-class for customer satisfaction by NICE Satmetrix.

Please feel free to contact us as detailed below – we look forward to hearing from you.

Exceptional 24/7/365 Service Support

**UK**  
 Woodgate, Bartley Wood  
 Business Park, Hook, Hampshire
